

A photograph of two men standing in an office hallway. The man on the left is younger, with short brown hair and a beard, wearing a dark blue polo shirt with an Under Armour logo and a Vytex logo. The man on the right is older, with grey hair, wearing a similar dark blue polo shirt with a Vytex logo. He has his arm around the younger man's shoulder. They are both wearing khaki pants. The background shows office windows and a framed picture on the wall.

Clearly, a Cut Above™

A Partner You Can Rely On.

Look inside to see why Vytex should be your choice to manufacture and install custom windows and doors.

President Adam Weinrub and his father - Founder and CEO Andy Weinrub - represent Vytex's heritage and innovation.

Improve Your Bottom Line.

Vytex provides innovation, quality and reliability in manufacturing, so our Dealer-Partners can focus on driving sales

At Vytex, we manufacture the highest quality replacement windows and doors sold exclusively through our trusted network of Dealer-Partners to homeowners across the country. Built on a foundation of customer service and grown through innovative technology, we are uniquely positioned because of our heritage in both manufacturing and installation to deliver custom products that meet the unique needs of your customers. That is the VytexVantage™ at work - a turnkey program that increases Dealer profitability by helping you sell more using our easy-to-customize marketing tools; while controlling your manufacturing and installation costs.

We started our mission more than 30 years ago. Our Founder, Andy Weinrub learned the business from the ground up, seeing first-hand the pitfalls that arose when the product didn't meet the expectations of the homeowner. He quickly learned how critical it was to use the best materials and the best production process to be certain that replacement windows and doors fit just as well as the originals and provide even better performance. That is what he set out to do when he launched Vytex more than three decades ago as a family owned-and-operated business. Now recognized as one of the top 100 window manufacturers in the country, Vytex crafts custom windows and doors inside our state-of-the-art, 200,000+ square foot manufacturing facility and showroom in the Baltimore-Washington region.

Our continued commitment to innovation means that Dealers can trust Vytex today and for years to come.

Vytex Window Features.

Vytex's custom-built windows represent the best in the industry

Vytex is proud to custom-build every window our Dealer partners order. This means we can offer any number and combination of shapes, sizes and colors. Vytex windows come in three different series, providing flexibility for our partners:

- **Potomac-hp Series:** Our premier line of windows, the Potomac-hp is also one of the most efficient replacement window systems in the marketplace. They provide up to R-6 performance and are one of the strongest welded window lines in the industry. Every window is manufactured from the highest-grade materials and tested to meet or exceed industry standards.
- **Fortis Series:** Blending customization with affordability, the Fortis is popular with both Dealers and homeowners. That's because they provide the highest level of performance we offer while offering the ultimate in flexibility with a multitude of interchangeable features to choose from to meet nearly any budget.
- **Georgetown Series:** Outstanding design, quality materials, tested durability, and sturdy construction are the hallmarks of Vytex's Georgetown Series. Designed with large glass surfaces to admit more light and ventilation, windows in the Georgetown Series are virtually maintenance-free.

Innovation in Manufacturing.

A heritage of craftsmanship combined with the latest in technology

Every window or door that Vytex manufactures is custom-built using the highest quality materials on the market. It's a turnkey process we have carefully refined over our 30 years in business. Our machinery is constantly updated with the latest in window-crafting technology to provide a product that our Dealers can trust every time.

Our in-house test lab also promises the utmost in quality control. Vytex's 60-point inspection process makes certain that every product is perfect by the time it reaches the homeowner. It is why we can promise a "100% Accuracy Guarantee" for everything we build and why our products include the strongest warranty in the business - lifetime coverage for the sash, frame, locks, hardware and insulated glass units and a one-year labor warranty on everything we install.
