

FORTIS SERIES®

WELDED CORNERS

Made from a specially formulated PVC, our welded sash and frame offers superior strength and durability, with a DP R-50 Rating — 140 mph wind load.

SUPERIOR INSULATING CAPABILITIES

Our foam-filled sash and frame offer superior insulating capabilities and ensure long-term durability of your windows.

THERMACORE™ REINFORCEMENTS

ThermaCore™ composite reinforcement in the meeting rails adds strength and reduces thermal conductivity. Overall, performing 730x better than aluminum and 191x better than steel.

INTRODUCING R5 GLASS: UNMATCHED CLARITY, ENERGY EFFICIENCY, & COMFORT

Our R5 glass is an energy-saving 4th surface coated glass. It offers excellent visible light transmittance and low reflectance. What's more, R5 is easy to clean. It's as scratch resistant as regular annealed glass, and there's no haze to mar the view. Rather than absorbing internal heat, our R5 glass reflects it back into the room, making your living space feel warmer and more comfortable.

SUPER SPACER® SYSTEM

Spacers play an integral role in window performance and can significantly boost the energy efficiency of your windows. Our Super Spacer® System outperforms all the rest, dependably delivering high performance for insulating glass units, including excellent resistance to ozone, weathering, water and aging, while maintaining its flexibility through wide changes in temperature and barometric pressure.

LOW PROFILE LOCKS & KEEPER

Our low profile locks and keeper offer a sleek, beautiful appearance with clean sight lines, while still providing unparalleled home security and child safety.

SUPERIOR AIR INFILTRATION

The Fortis Series incorporates features like foam-filled welded frames and sashes, triple-fin weatherstripping, top-rated glass packages and more. These important defenses are necessary to stop air from entering your home. Our windows reduce air infiltration 5x better than wood windows and 3x better than other high-performance vinyl windows. With a rating of .04 air infiltration – industry standards are .3 – our windows are among the most energy efficient on the market. Maintain comfort in your home and reduce your energy costs with the Fortis Series.

WINDOWS DESIGNED TO LAST A LIFETIME

Fortis Series windows offer superior energy efficiency and include the most advanced features and technologies available. Made from the highest-grade materials, our windows are tested to meet or exceed industry standards. They're virtually maintenance-free, and will keep their like-new beauty and performance year after year.

At Vytex, we guarantee your windows for life.* Our promise to you is that in the course of normal use, our products will be free from defects in material and workmanship for as long as you reside in your home. You can rest easy knowing Vytex windows and doors will maintain their function and beauty for years to come.

*Covers materials only. Labor and delivery are not included.
